# About Wellution

## What is Wellution?

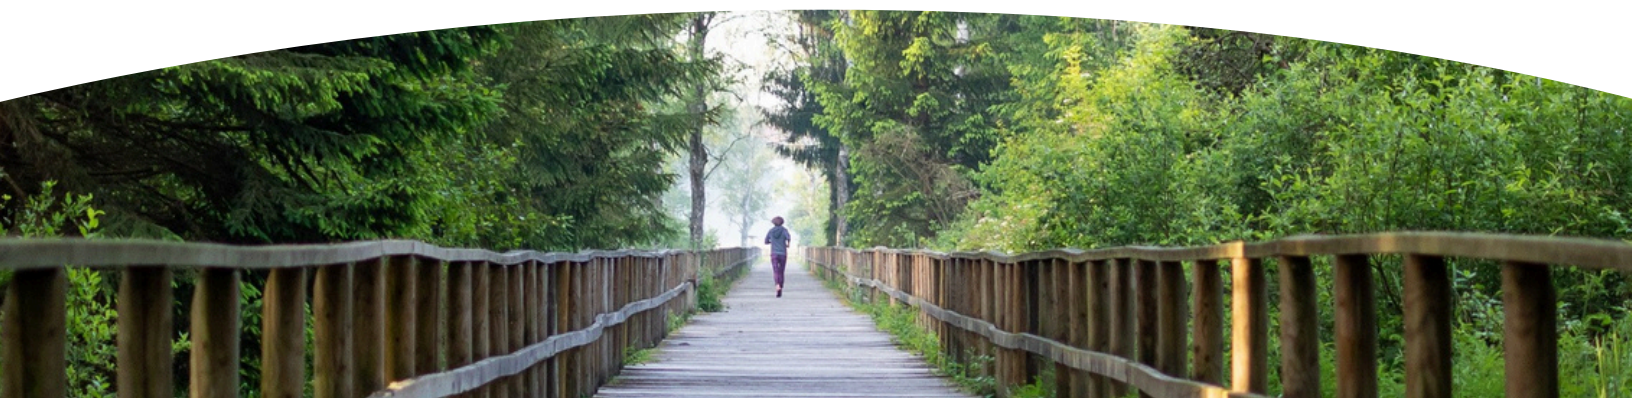

Wellution is a next-generation, AI-powered wellness and preventive care platform designed to extend lifespan and enhance quality of life by empowering users to take control of their health. It offers a single app that integrates personalized assessments, biometric tracking, telehealth, mental health support, and pharmacy savings.

## What is the core mission of Wellution?

To help individuals live longer, stronger, and more vital lives—backed by science and data. Our goal is to extend lifespan by 9.5 years through consistent engagement with proven health optimization strategies.

## What makes Wellution different from other wellness platforms or apps?

- AI Human-Centered Design: Automated, data-driven recommendations based on real-time biometric and lifestyle inputs
- All-in-One Ecosystem: Combines telehealth, pharmacy, wellness education, fitness/nutrition, and financial wellness in one app
- Zero Copays: \$0 cost for telehealth and many prescriptions
- Biometric Screenings: Facial biometric scans, stress monitoring, and cardiovascular indicators

# Platform Features & Tools

## **Are there physical devices required for Wellution?**

No, but biometric tools such as smart phones with a camera and optional wearables improve data accuracy. Devices are not included in the program.

## **What services does Wellution include?**

- Unlimited \$0 Copay Telehealth: Urgent care, behavioral health, chronic care, women's health, Virtual Primary Care
- Personalized Health Assessments
- Annual Bloodwork (at no cost)
- AI-Driven Biometric Facial Scan
- Prescription Concierge + Digital Rx Card
- Mental Health & Stress Monitoring
- Fitness & Nutrition Library
- Custom Wellness Challenges & Incentives
- Financial Wellness Tools
- Pet Telehealth
- Health Literacy Courses with Rewards
- CareNavigation & 1:1 Support

## **How does the AI Health Coach work?**

The Virtual AI Coach guides users through goal setting, wellness routines, and challenges based on their biometric data, health risks, preferences, and engagement history.

## **Does Wellution integrate with wearable devices?**

Yes. Users can connect wearables such as Fitbit, Apple Watch, and other trackers to sync data directly into their dashboard.

## **How are health risks identified?**

Wellution uses biometric scans, labs, self-reported surveys, and wearable data to generate a comprehensive health risk profile, which then informs personalized daily routines and goals

## Pharmacy & Prescription Support

### How does the Prescription Concierge work?

- 1,000+ drugs available at \$0 cost
- Available at 70,000+ pharmacies nationwide
- Specialty meds may qualify for assistance programs
- Savings up to 90% on high-cost meds
- No disruption to current health insurance

### Do I need to change my existing doctor or pharmacy?

No. Just show your Digital RxCard to participating pharmacies. Your medical claims and primary care relationships remain unchanged.

## Security, Privacy & Compliance

### What about HIPAA compliance and user data?

All data collected by Wellution is encrypted and stored securely in full compliance with HIPAA and applicable state/federal privacy laws.

### Real member results:

- \$200 monthly co-pay reduced to **\$0**
- Specialty drug cost reduced from \$720 to **\$200**
- \$105 antibiotic reduced to **\$3**

## Partners & Special Features

### Does Wellution include access to Gary Brecka's wellness protocols?

Yes. Users receive 30 days of free access to Brecka's VIP community and protocols focused on energy, longevity, immune health, mental clarity, and pain management.
